

The Gibraltar Health Authority is working hard to ensure that patients and staff are protected from possibly contracting COVID-19 as well as protecting the elderly and those with chronic health issues.

Therefore, the following changes to the dispensing of incontinence products and home oxygen supplies has been agreed:

- All incontinence products will be dispensed from Unit 69, New Harbours.
- Dispensary days & times remain unchanged.
- These are:
Tuesday's & Thursday's 9:00 am to 12:30 pm and 2:00pm to 4:00pm

These changes will take effect as from tomorrow Thursday 19th March 2020,

These measures are to prevent, as far as possible, the spread of the COVID-19 to the elderly and those with unstable chronic illnesses, who are at serious risk. Slowing the spread even amongst not at serious risk, but who might become sick with milder symptoms, will allow for Gibraltar to have as much resilience as possible in terms of resources and service provision.
