

## **VITHAS COVID-19 UPDATE**

Due to the current COVID19 situation in the area we have a new protocol concerning visits in the hospital. No visits are allowed in the ICU; information to relatives will be given by phone. When a patient is admitted in a general ward, a companion could stay, but we will require a negative antigen, and the companion should stay in the room with the patient during the whole admission, identified with a bracelet. For outpatient treatments, no companions will be allowed, unless an underage or dependent persons.
